Section I – General Information

A. Program Overview

Export Washington is a program developed by the State of Washington Department of Commerce (Commerce) to increase the number of small business concerns (SBC) which export, as well as to increase the value of goods and services currently being exported by SBCs. The program is funded in part through the U.S. Small Business Administration’s State Trade and Export Promotion (STEP) grant program.

The Export Voucher program will be used to reimburse eligible SBCs for specific export related expenses. Export Voucher awards will be based on funds available, the number of applications submitted, and the strength and completeness of the applications; late, weak or incomplete applications are ineligible for reimbursement.

B. Eligible Events and Activities

The Export Voucher program is designed to provide flexibility and encourage innovative use of funds to meet the specific export needs of Washington companies. Events/activities which are eligible and may qualify include, but are not limited to, the following:

• Services of the U.S. Commercial Service	• International Certifications
• Federal/State Export Training	• Translation Services:
• Overseas Trade Shows	○ Website
• Foreign Market Sales Trips	○ Marketing Materials

D. Funding Criteria

The major Export Voucher funding criteria include, but are not limited to, the following:

- SBC's must identify an eligible event/activity for a new-to-market or new-to-export company initiative which promotes exports.
- SBCs are limited to one Export Voucher per program year (September 30, 2011 to September 29, 2012); Export Vouchers are non-transferable and may only be used for one event/activity.
- An Export Voucher may be used to cover participation costs for up to two individuals if the activity/event is a trade show or mission targeted by Commerce. Otherwise the Export Voucher may only be used to cover participation costs of one individual.

- Export Voucher reimbursement is limited to 75% of paid eligible expenses, not to exceed \$5000. SBC's will be required to provide a minimum 25% cash match, or up to \$1250 for a full \$5000 Export Voucher. The 25% company cash match may not come from any other federal government source.
- The SBC selections for Export Voucher awards are based on available funds and the qualifications of the applicants. An application submittal is no guarantee of an Export Voucher award. Export Voucher reimbursements will be paid in full up to the awarded amount, unless the SBC does not fulfill its obligations with regard to participating in the approved program or submitting required receipts and summaries.
- Program reimbursement ends when all funds have been disbursed, or when the program year ends, September 29, 2012.
- These terms and conditions are subject to change without notice based on funding availability and changes in federal and state procedures and laws.

E. Selection Criteria

Applications will be reviewed and funding decisions will be rendered based on all of the following:

- A first-come, first-served basis. All applications will be accepted starting from the beginning of the program year, regardless of when the event/activity occurs over the course of the year. A portion of funds will be reserved for applications received later in the program year so that late entrants will still have a chance of receiving funds.
- Preference will be given to the following SBCs:
 - SBCs taking advantage of other Export Washington programs, such as the six state-funded export training programs. For further details see <http://www.waexports.com/>.
 - SBCs that focus on technology industries including aerospace, information communication & technology, life sciences, clean technology, advanced manufacturing.
- Numerical evaluation ranking, based on the following scoring system. Applicants must receive a score of 80 or above to be considered for funding.

○ Company Description	20 points
○ Program Event / Activity Information	30 points
○ Program Impact	30 points
○ Program Budget	20 points
